A platform for
Assessing and Bridging
Generative AI and **Human Skills**
in Secondary Education.

Empowering educators
and students through
AI-driven tools

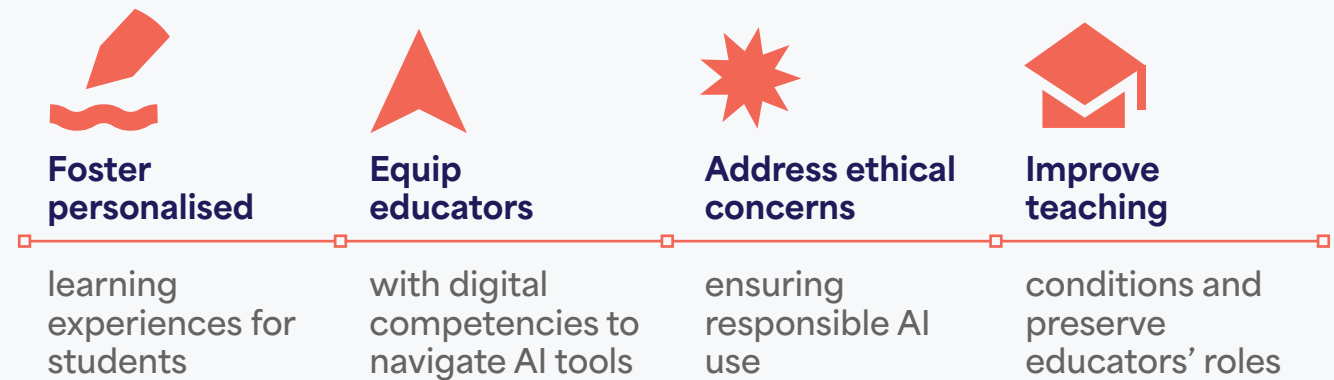

In a rapidly evolving digital world, the GenAI4ED project leverages Generative AI (GenAI) and Large Language Models (LLMs) to enhance education.

This EU-funded project empowers educators with tools for personalised learning, ethical AI integration, and improved teaching roles.

Objectives

Activities

- Development of a digital platform:** Evaluating AI tools and matching them to user needs.
- Pilot studies in schools:** Testing and refining the platform.
- Policy recommendations:** Collaborating with stakeholders to guide ethical AI adoption.
